

Ziheng Zhao

Beijing, China

Email: zhao.zhbeijing@gmail.com

Website: <https://creator-zh.github.io>

GitHub: <https://github.com/Creator-zh/Creator-zh.github.io#>

Education

Renmin University of China, School of Statistics

2024–Present

B.S. in Applied Economics and Data Science (in progress)

Research Interests

Artificial General Intelligence, model architecture design, LLM interpretability, AI for Science, and heterogeneous model merging.

Research Experience

Research Intern, GSAI, Renmin University of China

Dec 2025–Jun 2026

Supervisor: Prof. Hongteng Xu

- Working on heterogeneous model merging.
- Exploring robust and interpretable large-model integration strategies.

Publications

No publications yet.

Selected Projects and Coursework

- UC Berkeley CS61A – Structure and Interpretation of Computer Programs
- UC Berkeley Data100 – Principles and Techniques of Data Science
- Stanford CS229 – Machine Learning
- Stanford CS224n – Natural Language Processing with Deep Learning
- Stanford CS336 (ongoing) – Language Modeling from Scratch
- Westlake University – Mathematical Principles of Reinforcement Learning

Technical Skills

Programming: Python, C++, SQL

Machine Learning: PyTorch, scikit-learn, NumPy, Pandas

Tools: LaTeX, Cursor, basic HTML/CSS/JavaScript

Awards and Honors

- Provincial First Prize, China Undergraduate Mathematical Contest in Modeling
- Honorable Mention, Mathematical Contest in Modeling (MCM/ICM)
