

Ziheng Zhao

Beijing, China

Email: zhao.zhbeijing@gmail.com

Website: <https://creator-zh.github.io/>

Education

Renmin University of China, School of Statistics

2024–Present

B.S. in Applied Economics and Data Science (in progress)

GPA: 3.79/4.00 Class Rank: 20/178

Research Interests

My interests are very broad, including but not limited to:

- Economics theory, such as Game theory and economic growth theory
- Interpretable large-model integration
- Efficient attention mechanism
- Heterogeneous model merging
- Economics and financial applications of AI

I mainly focus on the relationships and interactions between humans and AI, between AIs themselves, and between humans.

Research Experience

Research Intern, GSAI, Renmin University of China

Dec 2025–Jun 2026

Supervisor: Prof. Hongteng Xu

- Working on heterogeneous model merging.

Publications

Coming soon.

Selected Projects and Coursework

- UC Berkeley CS61A – Structure and Interpretation of Computer Programs
- UC Berkeley Data100 – Principles and Techniques of Data Science
- Stanford CS229 – Machine Learning
- Stanford CS224n – Natural Language Processing with Deep Learning
- Stanford CS336 – Language Modeling from Scratch
- Westlake University – Mathematical Principles of Reinforcement Learning

Technical Skills

Programming: Python, C++, LaTeX

Tools: basic HTML/CSS/JavaScript

Mathematics: Proficient in linear algebra, calculus, probability and statistics

Machine Learning: Hands-on experience in training and evaluating deep learning models

Awards and Honors

- Provincial First Prize, China Undergraduate Mathematical Contest in Modeling
- Honorable Mention, Mathematical Contest in Modeling (MCM/ICM)
- Second-Class Academic Scholarship, Renmin University of China
